## LEGAL NOTICES

Your Right To Know!

Continued from  
previous page

ROYALTY OWNERS,  
AND PARTICULARLY  
ALL PERSONS INTER-  
ESTED IN SECTION 19,  
TOWNSHIP 2 NORTH,  
RANGE 1 EAST, UBM,  
UINTAH COUNTY,  
UTAH.

Notice is hereby given by  
the Division of Oil, Gas and  
Mining of its tentative deci-  
sion to approve the Large  
Mining Operations Notice  
of Intention for the  
Duchesne County Asphalt  
Mine. Mining activities will  
affect the following area: W1/  
2NW1/4, and NW1/4 SW1/  
4, Section 19, T2N, R1E,  
UBM, Uintah County, Utah.

The operator will employ  
the following mining and rec-  
lamation techniques on ap-  
proximately 36.86 acres of  
land.

During Operations

Surface mining of tar sands  
using conventional equip-  
ment such as bulldozers,  
front end loaders, and trucks.  
Removal of overburden, sur-  
face blasting of tar sands,  
processing tar sands through  
a crushing system and stock-  
piling the crushed material  
for use in paving roads in  
Duchesne County. Active  
mining and crushing take  
place on a seasonal basis.

Following Operations

All drill holes will be  
plugged. Access roads will  
be ripped to a depth of one  
to two feet with road cuts  
being regraded close to the  
approximate original con-  
tour. Waste stockpile ma-  
terial shall be placed into the  
pit as partial backfill against  
the highwall and be graded to  
provide positive drainage  
out of the pit. Topsoil ma-  
terial shall be placed over the  
backfill. Composted manure  
at the rate of 10 ton/acre will  
be spread over the backfilled  
area, the crushing and ma-  
terial stockpile areas, the top-  
soil stockpile area, and the  
previous crushing and stock-  
pile areas. The compost shall  
be ripped into the upper six  
inches of soil. All affected  
areas will be broadcast seeded  
immediately after comple-  
tion of the earthwork, pref-  
erable in the fall.

Final regraded surfaces  
shall be left in an extremely  
roughened condition to mini-  
mize erosion, and enhance  
moisture retention. Where  
available, rocks and grubbed  
vegetation will be randomly  
placed on the regraded areas  
to discourage public access  
and break the area up visu-  
ally. Signs will be placed in  
several locations around the  
perimeter of the backfilled  
pit area warning of the  
highwall hazard. All struc-

tures and debris shall be re-  
moved from the site.

The natural drainage sys-  
tem leading into the re-  
claimed mine area shall be  
re-established by grading  
drainage channels through  
the site to match the size of  
the undisturbed channel into  
the site. Reconstructed  
drainage channels shall be  
broadcast seeded. The main  
access road into the site shall  
remain for continued access  
to private lands.

The person representing  
the operator is Mr. Doug  
Nielsen; Phone (435) 738-  
2468. Duchesne County is  
fulfilling obligations under  
the Utah Mined Land Rec-  
lamation Act of 1975, Utah  
Code Ann. §§40-8-18.

Any person or agency  
aggrieved by this tentative  
decision to issue approval is  
hereby requested to submit

written protest within thirty  
(30) days of the date of  
publication to Pamela  
Grubaugh-Littig, Associate  
Director of Mining, Divi-  
sion of Oil, Gas and Mining,  
1594 West North Temple,  
Suite 1210, Box 145801, Salt  
Lake City, Utah 84114-  
5801, setting forth factual  
reasons for the complaint. If  
no responsive written pro-  
tests are received by the  
Division within 30 days af-  
ter the last date of publica-  
tion, the tentative decision  
of the Division will be final.

DATED THIS 26th day  
of October, 2000
